SpeedyPOS is an integrated Point of Sale Software package that gives you much more than just the basics to run your retail business. SpeedyPOS takes the cash register to the next level, allowing you to make sales, manage customer accounts, control and order inventory, and create detailed reports on every aspect of your business. SpeedyPOS supports most POS hardware, such as barcode scanners, cash drawers and receipt printers.

## Point of Sale

Turn your PC into a **computerized cash register**, and get the information you need to successfully run your business. Speed up the time at the till with instant pricing, touch screen and bar code scanning. Supports Cash, Accounts Receivable, Estimate, Work Order and Layaway invoice types.

## Inventory Control

With a few keystrokes, SpeedyPOS™ will show you what inventory you have on hand, where you got it from, and when you should order more. **Increase your profitability** by avoiding double ordering, lost customer orders or not having enough stock available when customers want to buy.

## Customer Management

Keep track of your customer accounts and spending habits. Take advantage of automatic price schedule discounts and set customer credit limits. **Improve your customer service** by having your customer sales history at your fingertips.

## ✓ Built in Accounting

In SpeedyPOS™ the accounting is built in, not bolted on. It's all part of the same package, so when you receive inventory, make a sale or pay your bills the entire system is updated. You don't have to post anything, make a batch process or update another piece of software, it's all done **immediately and accurately**.

## ✓ Accounts Receivable and Payable

SpeedyPOS™ Retail POS Software helps you improve your Account Receivables – and **increase cash flow** by simplifying and automating the Account Receivable process. A robust Accounts Payable module is included as well. Keep track of your outstanding invoices with suppliers shouldn't be complicated, so SpeedyPOS™ makes it easy.

## ✓ Custom Training Plan

Learn at your convenience with your own custom training plan. Based on goals you set in the Set-up Wizard, SpeedyPOS™ automatically creates a plan for you - with training videos to watch and tasks to complete so you can **learn the software quickly**.

## ✓ Email Marketing

Create targeted email marketing campaigns based on your customers purchases with **Windward We-Mail**. Increase sales and improve profit by keeping in touch with your customers.

## ✓ Integrated E-commerce

Quickly and easily set up your on-line store using web site templates with Windward We-Comm™. Export inventory items to the web and import orders into your SpeedyPOS™ system - **no double entry or tedious updating!** Includes 1 year of hosting. [speedypos.com](http://speedypos.com)

Set up and learn easily with Set-up Wizard and Custom Training Plan.

See accurate, up to the minute financials.

Manage your customer relationships.

Spend less time on paperwork and more on what's important.

Know what you have in stock, what's selling and what you need to order.

Because you're an **Entrepreneur**.  
Not an Accountant.
